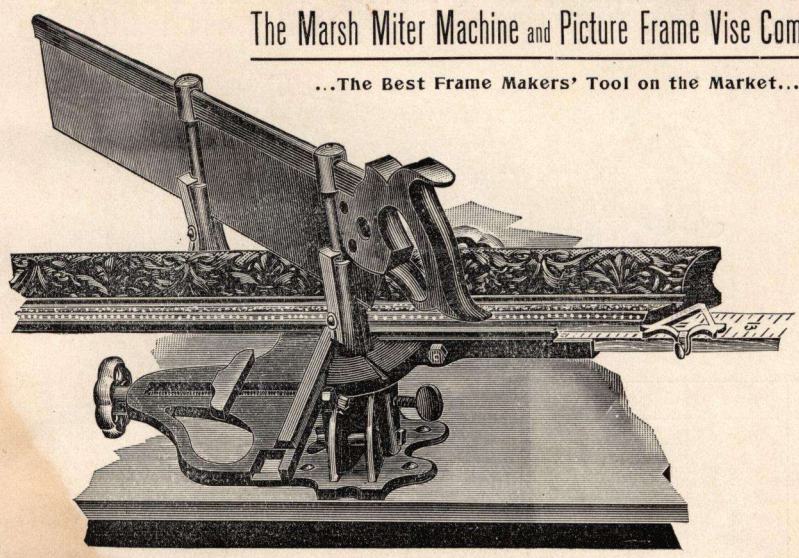
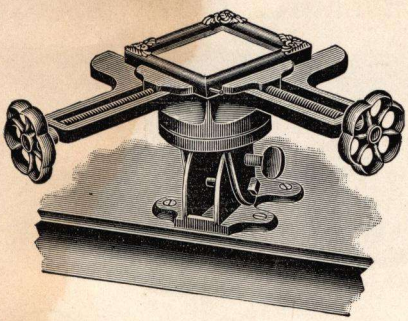
The Marsh Miter Machine and Picture Frame Vise Combined

...The Best Frame Makers' Tool on the Market...



HAMMACHER, SCHLEMMER & CO., New York City,
(Since 1848.)

Price complete $12.50



.....THE.....

Marsh Picture Frame Vise

—FOR THE—

FRAME MAKER

This is by far the handiest little Vise
.. .. .. **ever gotten up** .. .. ..

It takes in **FRAMES** as **SMALL** as 3½ x 3½ inches, and any size **LARGER.** It will clamp any moulding that is *smaller* than 4½ inches wide. It has the same *universal* base as the Marsh Miter Machine, and can be tilted or swung at any angle, while in either a horizontal or a perpendicular position.

PRICE .. .. **$4.50 NET**

THE MANUFACTURER OF THESE MITER BOXES, has had many years experience with **MITERING TOOLS,** and no *pains* or *expense* is *spared* to make them the Very Best.

.....EACH BOX HAS.....

...METAL FACE, OR BED PLATES...

These plates have ground surfaces, the *tops* and *bottoms* absolutely *true* and *parallel*—no *warping*, no *splitting off*, always a *true* and *level bed plate* to work from; a mechanic will appreciate this. The *edges* of the plates are ground also, and they add much to the *general appearance* of the tool, to say nothing of the very material advantage gained in the *trueness* and *accuracy* of the work, as well as in the *durability* of the box.

The design or the arrangement of the ribs on the plates is such as to tend to keep the stock from slipping while being sawed.

Every Machine and Miter Box is carefully tested before leaving the factory, and they are all guaranteed to be true, and perfect in construction.

All saws sold with these boxes are warranted, and have 12 points to the inch.

Liberal discount to dealers.

Electrotypes furnished gratis to jobbers and dealers.

Price List March, 1902.

Prices subject to change without notice.
